#### IN THE CLAIMS

Claims 51-64 are directed to an invention non-elected without traverse; accordingly, claims 51-64 have been cancelled.

Claim 68, line 6, "a" has been changed to --an--.

Claim 73, line 10, "a second" has been changed to --the second--.

Claim 74, line 8, "a second" has been changed to --the second--.

Claim 75, line 8, "a second" has been changed to --the second--.

Claim 76, lines 1-2, "the antenna is a dipole antenna having" has been changed to --the dipole antenna has--.

2. Applicant's arguments filed 10/30/08 have been fully considered but they are not persuasive as to the following point:

Regarding the non-elected claims 51-64, applicant "requests the consideration of the withdrawn process claims for rejoinder" (page 13, last 3 lines of response); however, as set forth in MPEP 821.04, "where restriction was required between a product and a process of making...the product" (as was the case here, note the 4/10/08 restriction requirement), "**all** claims to a non-elected process invention must depend from or otherwise require all the limitations of an allowable claim" in order for rejoinder to occur (emphasis partly original, partly added). Such is clearly not the case here, since the elected claims are "product" claims and the non-elected claims are "process" claims lacking any "product"-type limitations; in particular, the process claims must include each and every limitation of an allowed product claim, either by reciting verbatim the content of an allowed product claim or by depending from an allowed product claim.
